

We, Medical Need and Immedica Group, are moving!

Medical Need and Immedica Group, have outgrown our offices due to the fast expansion since the launch of Immedica – a pan-European specialty pharma commercialization and distribution platform. The platform was built on the initial acquisition of Medical Need Europe whose headquarter has been situated at Blasieholmen.

With the new team in place we expect additional expansion of the company and therefore, we are excited to announce that we are moving to bigger premises at Norrtullsgatan 15, 113 29 Stockholm. From the 7th of January we will all be installed in our new office and all contact information such as email addresses and phone numbers are the same as earlier. Business as usual during the working days of Christmas
